BRILLANTE

Recycled content by color:

Trend USA Ltd certifies that the information concerning material content of the TREND BRILLNATE COLLECTION Q represented in this document is factually correct and current. All the data was collected analyzing not only the raw materials, as they are prepared at the time of the recipe, but also during the production process.

These estimates are based on practical experience and past measurements and are very close to actual values.

Only 44 colors have been tested and produced so far. Of these 44 colors only 3 cannot be produced with recycled content (220, 221 and 281).
