TRANSFORMING SPACES. ELEVATING LIFE.

ONE OF ONE

ONE OF ONE, The Art of Exclusive Spaces

by Federica Bisazza, Creative Director

Welcome to this new visual exploration, a sensory journey through exclusive **aquatic sanctuaries** that redefine the very concept of high-end **wellness and relaxation**. Mosaic is not just a surface; it's a living element. As you step into the spaces we've selected for you, the effect is fully immersive: environments transformed into luminous spaces where water dances with light, reflecting infinite depth.

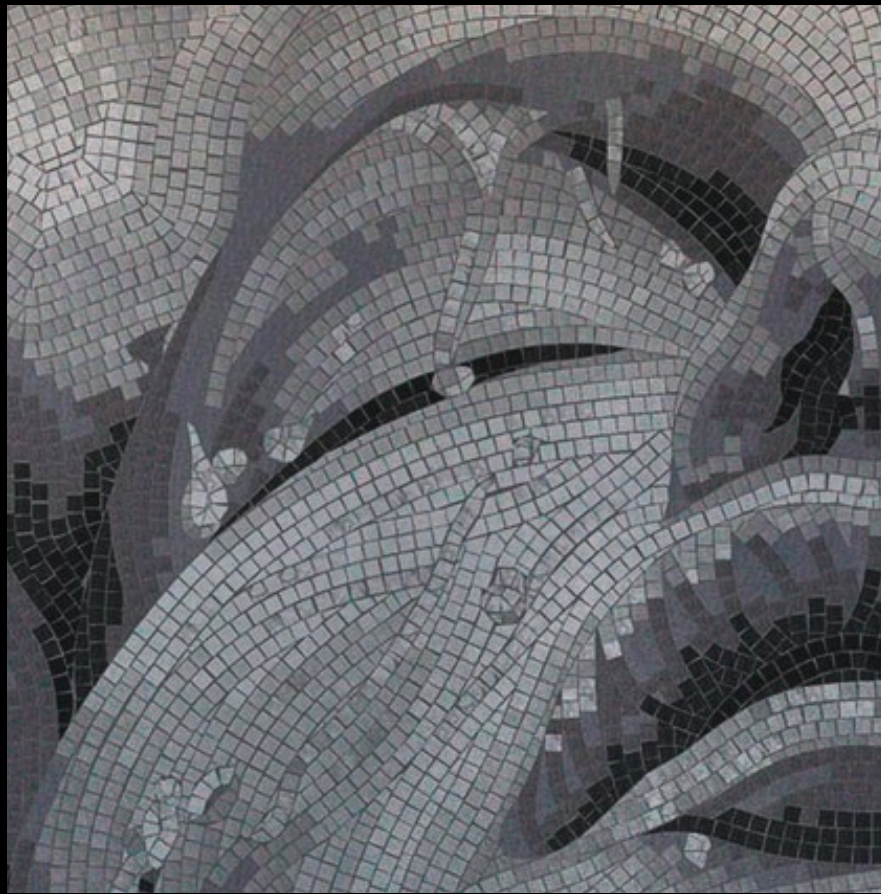

We set out to explore color palettes inspired by water: from deep, soothing neutral tones to rich shades of gold, perfect for enveloping relaxing spa rooms and pools, to iridescent, shimmering hues that transform private showers and bathtubs into pure, rejuvenating retreats.

This is only the beginning. In the future we envision, our designs will continue to elevate well-being, seamlessly blending **artistic craftsmanship with cutting-edge technologies**.

I invite you to browse through these photographs and let yourself be carried away by the evocative atmospheres that water, together with TREND surfaces, creates.
